T: +962 6 5856177, 5852392, 5852192

F: +962 6 5863094

E: info@shepherds-tours.com

Best regards,
Shepherds team

"Shepherds" Tours & Travel

Day 1: Amman Airport – Amman Hotel

Meet & assist by Shepherds representative at Queen Alia International Airport – transfer to Amman hotel for dinner & overnight

Day 2: Amman – City Tour – Dead Sea – Amman Hotel

City tour of Amman: visit the Citadel, Archeological Museum, Roman Amphitheatre, and Folklore Museum. Due to the city's modern-day prosperity and temperate climate, almost half of Jordan's population is concentrated in the Amman area. The residential suburbs consist of mainly tree-lined street and avenues flanked by elegant, almost uniformly white houses, in accordance with a municipal law, which states that all buildings must be faced with local stone. The downtown area is much older and more traditional with smaller businesses producing and selling everything from fabulous jewellery to everyday household items. The people of Amman are multi-cultural, multi-denominational, well-educated and extremely hospitable. They welcome visitors and take pride in showing them around their fascinating and vibrant city.

At 410 meters below sea level, the Dead Sea is the lowest place on earth. Jordan's Dead Sea coast is one of the most spectacular natural and spiritual landscapes in the world and it remains as enticing to international visitors today as it was to kings, emperors, traders, and prophets in antiquity. The main attraction of the Dead Sea is of course the soothing, abnormally salty water itself. The salt content of the water is 31.5% making the water so buoyant that it is impossible for the visitor to sink. The water also contains 21 minerals including high levels of magnesium, sodium, potassium, and bromine and 12 of these minerals are found in no other body of water in the world.

Day 3: Amman – Petra – Amman Hotel

The Red Rose City of Petra: The giant red mountains and vast mausoleums of a departed race have nothing in common with modern civilization, and ask nothing of it except to be appreciated at their true value - as one of the greatest wonders ever wrought by Nature and Man. Although much has been written about Petra, nothing really prepares you for this amazing place. It has to be seen to be believed. Entrance to the city is through the Siq, a narrow gorge, over 1 kilometre in length, which is flanked on either side by soaring, 80 metres high cliffs. Just walking through the Siq is an experience in itself. The colours and formations of the rocks are dazzling. As you reach the end of the Siq you will catch your first glimpse of Al-Khazneh (Treasury). The Treasury is just the first of the many wonders that make up Petra. You will need at least four or five days to really explore everything here. As you enter the Petra valley you will be overwhelmed by the natural beauty of this place and its outstanding architectural achievements. There are hundreds of elaborate rock-cut tombs with intricate carvings - unlike the houses, which were destroyed mostly by earthquakes, the tombs were carved to last throughout the afterlife and 500 have survived, empty but bewitching as you file past their dark openings. Here also is a massive Nabataean-built, Roman-style theatre, which could seat 3,000 people. There are obelisks, temples, sacrificial altars and colonnaded streets, and high above, overlooking the valley, is the impressive Ad-Deir Monastery – a flight of 800 rock cut steps takes you there.

Day 4: Amman – Amman Airport
